“ Akil, we had some great times back in elementary school and middle school. I remember you coming over my house and playing Playstation, Sega Genesis, and Super Nintendo. All of the conversations we used to have about new video games and systems. I can't believe you're gone already. We lost touch after middle school but I never forgot about you. My condolences to the Drysdale family. You're missed out here in Deer Park, NY. RIP friend.-Anthony Petruzzo
