“ For my dear brother Brian. There are no words to express how much I will miss you. I think of all the fun trouble we've had together. I will smile and think of you every time I look through your stained glass window you made. I laugh every time I see the foto of you in those patched jeans I made. Knowing that you just couldn't wait for me to sew them on so instead we went out dancing and those sharp pins stuck you all over. What a laugh that was. Anyway little brother your up there now with daddy. I miss you already so I'll go look through your colorful window and think of all the fun times together. I love you
