“ This was my kind,sweet loving,caring mother to which I dearly miss soooooo much,she was still here when I was wrongly convicted of crimes I did take part in as alleged against me, she told me I would get out one day, although I've been here 30-illegal years of my life, and without her I've had very little support, moma I trained myself with the law of Georgia but it don't matter to the white man what you present before him showing my innocent he still want do according to his own laws, it looks as if I want make it out of here after all as they want even consider me for parole even after serving 30-illegal years to which by their laws I should have been considered for parole after serving 14- years, do you see that? That is being done to me due to my illegal incarceration, I sit here each day and watch murders parole out go to the transitional centers, compare that to what I'm allegedly in here for is that right? I love you sooooo much and need you soooo bad maybe I'll be there with you soon, I love you moma... Cornbaby!!! Mr Willie Claude Ramey jr
