“ Words cannot adequately express the deep sorrow I feel in this loss. Freda gave me my first interview and then hired me for my first job, which happened to be NASA Johnson Space Center. I'm so very grateful for this start to my career and the many lessons Freda extended to all of us who were her charges. We learned our lessons well and there's denying that her introduction into our lives was a catalyst that positively changed our paths forever. I am so shocked, it seems like we just spoke on LinkedIn. Even so I'm ever so grateful to have been able to share with her what she meant to all the Office Education (OE) students who trooped through her office over 20 yrs. Cannot, will not forget. Rest in Peace, Sweet Freda Marks Lockhart.

“ Many of us at NASA Johnson Space Center (JSC) in Houston worked and remained friends with Freda throughout the years. We are shocked and very saddened by her death. Freda left a legacy at JSC (1973-1993), we remember her as vibrant, beautiful, intelligent, and someone who had a passion for making a difference. As a member of the Human Resources Team and as Deputy, Equal Opportunity Programs Office, she selected, mentored, and encouraged many young people who made a career at NASA because of her. JSC is remembering and honoring Freda by flying the US flag over the Mission Control Center, a tradition to honor the memory of our team mates. The flag will be presented to her son DJ. Some of us have never met DJ, but based on what we know about his Mom and the memories Freda shared with some of us about DJ, we know he's a great son! Mission accomplished! God speed, Freda!

*Beautifully said! Freda was a role model and helped many people succeed in their careers. More recently, I particularly loved her photos on Facebook of her son and daughter-in-law and her puppy. Freda loved life and lived it to its fullest. God speed, Freda! You left a legacy and we thank you for that.*

“ *Freda was such like a bright light in so many people’s lives. DJ, your mama was an amazing lady, and I feel privileged to have known her. I know you will miss her deeply. I’ll be keeping you in my thoughts and prayers. Your mother blessed so many people with her faith and kindness. Praying that you’ll find comfort in your memories of her and in the knowledge that others are missing her, too.*

*The 'Epitome' of Class, Grace and Excellence. The consummate professional. She exuded strength and character in the lives of the thousands she embraced and encountered. Her manner of dress was classy and her personal etiquette indicative of the 'Queen' she was. The only thing that overshadowed her impression on others is the lovingly way she doted on her son Donald. Know there is not greater LOVE than that of a mother. Donald she had that for you.*

*Embracing your sorrow and shedding tears. This one hit hard!  
Rest in Paradise Ms. Freda! You have left an indelible mark on this world.*

“ I was a friend of Freda for decades at EPA, and texting friend since her retirement. I was in contact with her last week, as we sett a lunch after a possible trip to Houston for a 2nd opinion. I cherished our times and was happy as she launched her business to educate agencies. I savored our times as we discussed new joys in her life: DJ and his academic and married successes, her love of her Houston family, her courage in dealing with new assaults on her physical self but not on her spiritual core, I give thanks for being in her sunlight, even as we laughed at her commitment to heels when such wearing were giving big time pain to her knees - her stubborn commitment to “stylin’ that was so evident in her smile. Freda, Rest in God’s peace and soar with no pains, and ask the Lord to ease our pains without you nearby. God bless her loving family.
