“ *I got to know Henry as a friend and colleague thru travelers and my agency. He was simply the best person. There really are not words to describe what an incredible man Henry was. To every person he met. My husband sat next to Henry on a travelers trip and they were literally instant friends, discussing their love of music.*

My prayers are with you Lydia and your entire family. He was a giant among men.

Lydia, Henry was one of my favorite people in the insurance industry. We met when nationwide decided that they didn't want to write the property and casualty insurance for McDonald's any longer. Henry was the vice president of Aetna and he was one of the individuals that I called on to move my book of business. He was open-minded very intelligent and open to new ways to increase Aetna share of the market. Since McDonald's had a reputation for being marginally profitable. Henry and I reviewed all of the claims for several 100 locations in determined what the most common were and Henry help to set up a special claim handling unit. And arrange for training for the claims handlers so that they knew how to handle things like slip and fall and food poisoning that were alleged, But we're only legitimate claims a small portion of What were reported. We then flew to Chicago in met with McDonald's risk manager. Jerry lane who gave us the green light for the program. After the first year or 2 travelers liked the programs so well and the select insurance product that they purchased the entire division from Aetna, Which i'm sure you remember. Henry became Vice President of Travelers, the program flourished and Henry became a friend instead of just another VP concentrated on CYA and mywife and I were introduced to you. I appreciate greatly having had the opportunity to meet both of you and to get the work with Henry. The time that I did. If there is ever a way I can return the favor and. Help you please don't hesitate to call. Steve Seibert. Advanced Insurance Solutions.
