“ Grandma I know its been only a couple months but I miss you. I miss us playing 500, watching movies, and eating ice cream. I remember when we first got Buddah back in 2009 and how he was all on your lap asleep and you two have been together ever since. Before you say a thing Buddah is fine he sleeps in your room every day. I hope everything in heaven is amazing because you deserve it for being in my life and even seeing your great grandkids for the first time and getting to know them. I miss you very much.. Everyone does. I hope you and daddy are chilling up in heaven watching over us.

Love you Grandma!

“ I recall meeting Mother Dyer over 20 years ago and from that day she always made me feel like a part of the family. I still don't know anyone who plays Bid Whist better. You will be missed; rest well.

“ *Lorraine’s departure does not mean she no longer exists. It literally means she has pulled up anchor and set sail for a better life and place than planet earth. She will always reside int the hearts of her children, her grandchildren, great grandchildren and those who knew and loved her. With heartfelt sympathy.

“ *My nana, oh how you are being missed! I know you are watching though as one thing you always did was protect your family. Your laughter and ready to go nature to be in the mix will always be in my memories. I hope you are not beating folks in heaven with your card tricks that we will not forget. The next game we play will be hard but everyone will be looking for signs from you!!! You lived a loving and full life surrounded by your family. Know you will be forever in my heart ♡.*
