“ Marlen you were the glue to hold the group together. I loved your light and positive energy. Every memory from working with you to becoming close friends with you is so precious and cherished. We all love and miss you so much. You always had a smile and always saw the good in things and in people. I wish we were able to hang out one last time. But I know you'd want us all to smile and laugh regardless because that's the kind of person you are. So we will keep smiling . Thank you for everything you gifted us with your presence on this earth. You will be deeply missed.
