“ I met Marvin in around 2007 at a VA medical facility and we hit it off instantly. We used to eat hard peaches together with salt. I remember when he had a Lincoln car and the stirring wheel would telescope in and out too the driver likens. Come to find out that were in Iraq at the same time same fighting position and he was in a Humvee laying down heavy fire power with a Mark 19. Thank You my brother for all you did and you will be dearly missed but never forgotten
