“ We are writing to express our deepest apologies for the technical difficulties that occurred during the live stream of your loved one's memorial service. We understand that this must have been a frustrating and disappointing experience for you and your family, and for that, we are truly sorry.

At such a sensitive and emotional time, we understand the importance of being able to honor and remember your loved one in the best possible way. Unfortunately, unforeseen technical issues arose during the live stream, which disrupted the viewing experience for those who were unable to attend in person. We deeply regret any distress or inconvenience this may have caused.

In order to ensure that your loved one's memory is properly honored, we have taken immediate action. Our team has worked tirelessly to edit the footage of the funeral service and create a beautifully curated Essence of Life video presentation. The Essence of Life presentation captures the cherished memories of your loved one's life through precious family photographs. We believe that the edited version of the funeral service and the Essence of Life presentation will provide a more seamless and meaningful viewing experience for you and your family.

We have taken great care to ensure that this video reflects the love, respect, and admiration that your loved one deserves. It is our hope that this video will bring comfort and solace during this difficult time, allowing you to remember and celebrate her life in a way that truly honors her memory.

Once again, we sincerely apologize for the technical difficulties that occurred during the live stream. We understand the importance of preserving and sharing the memories of your loved one, and we are committed to making this right.

Please know that our thoughts are with you and your family during this time of grief. If there is anything else we can do to support you,

please do not hesitate to reach out to us. We are here for you.
