“ *It was the shocking news that brought tears to my eye and you made me remember what it was like to cry. On this dreadful day, God decided it was your time, your time to go. You were more than just a uncle you was my daddy Otis. You was a special role in my life you was my friend my supporter in a different way than anyone else can know. You was both a relative and a super hero; one of the few people able to be both. You was a crazy cowboy fan and my mentor of how to have a heart for people. I am going miss your laugh, and the life lesson how to be man and father. Even though i loss you on this earthly pit stop and this loss is a particularly hard one I know I will definitely will see you in heaven one day. I will keep my heart filled with the years of happy memories we had, and that special connection forever. Thank you Daddy Otis for everything. Love you always*
