“ I met Richie at Mauldin High School & quickly figured out, few people were smarter or faster. Nothing was impossible in his opinion and Richie never had a problem proving himself right!!! It seemed like every step of the way he was building one positive thing after another. I was excited to see him become a pilot recently, but I didn't know he'd be getting another set of wings too. Sending positive vibrations to the Hendricks family. See you on the other side.
