“ I am so angry that we did not get to spend time together. Based on everything I have learned about you, you are a Phenomenal Woman and a blessing. I want you to know Im going to love on your brother and help him get to know your husband so that he can feel closer to you. He is hurting because he feels he never got the chance. Well the lesson we learned is when the chance is not visible you make a chance. Love on the people that are important to you and be present and vocal about it. Thank you for this life lesson.
