“ To my cousins the Jackson family, my greatest love and deepest condolences is upon you. Aunt Vicky was one of the most beautiful women and gentle giving spirits I knew, we loved her and will never forget the many conversations and memories. My mom and and Aunt Vicky shared the same birthday but a different year and throughout the years they would always make sure they would greet each other on that day, Vicky was another graceful beautiful woman who walked and loved in the flesh leaving many beautiful memories behind, Cousin Felecia your mom will always hold a special place in our hearts. We love you all.
